

## **Announcing and Alerting**

It is recommended that Clubs follow these regulations in their own club events but they do not have to.

Club Committees are at liberty to implement as many or as few of the regulations as they see fit. E.g. a club may decide, because all of its regular members play an opening weak 1NT in the range 12-14 HCP, that an opening bid of 1NT need only be announced if the point range is different to that.

However, clubs should bear in mind that if members of the club play in local leagues, county or national events, where these announcing and alerting regulations are in force, they may find themselves at a disadvantage by virtue of not being familiar with the EBU regulations.

Clubs should also be aware that visitors to a club may use announcements even though the club has decided not to.

For full details see the [Full Announcing and Alerting Table](#)
